

# SINOTHANDO MSIYA

Computer Science & Information  
Systems | Final Year | Wits  
University

## CONTACT

sinothandomsiya212@gmail.com  
079 097 1467

## PROFILE

Final year Computer Science and Information Systems student at Wits, passionate about building practical software solutions that solve real-world problems.

## PERSONAL DETAILS

Sex: Male  
Marital Status: Single  
Nationality: South African  
Health: Excellent  
Criminal Offence: None

## ADDRESS

Myembe Location  
P.O Box 542  
Umzimkhulu, 3297

## LANGUAGES

- IsiZulu (Home)
- IsiXhosa
- English

## SKILLS

- Problem Solving
- Teamwork
- Communication

## PROGRAMMING

- Java
- Python
- C#
- C++
- JavaScript
- HTML / CSS

## TOOLS & TECH

- Express.js
- Git / GitHub
- VS Code
- Postman
- MySQL
- Firebase Firestore
- Groq API
- Android Studio
- Azure Web Apps

## EDUCATION

### Clydesdale Senior Secondary School

Grade 12 | 2023  
Subjects: Mathematics, Physical Science, Life Science, Agricultural Science

### University of the Witwatersrand

BSc Computer Science & Information Systems | Final Year (current)

## ACADEMIC COURSEWORK

### Information Systems

- Structured and analyzed data using Microsoft Excel to identify trends, patterns, and performance issues.
- Applied systems analysis techniques to identify client problems and propose effective solutions.
- Developed strong report writing skills focused on communicating solutions from a client perspective.

Created system models using:

- Use Case Diagrams
- Activity Diagrams
- Sequence Diagrams
- State Diagrams

Completed a group project: Student Funding Management System

- Conducted system analysis and problem identification
- Designed and developed a solution based on user requirements
- Emphasized planning and system design before implementation

### Business Process Analysis (Current)

- Researched and analyzed the impact of Agentic AI in process-centric organizations.
- Evaluated benefits such as automation and efficiency, as well as associated risks.
- Applied root cause analysis techniques using Ishikawa (Fishbone) diagrams.
- Developed analytical and critical thinking skills through academic research and essay writing.

## PROJECTS

### Personal Portfolio Website

HTML / CSS / JavaScript

- Designed and developed a personal portfolio website to showcase projects, skills, and academic background.
- Responsive layout built with HTML, CSS, and JavaScript for clean presentation across devices.

<https://msiyaynwa2005.github.io/MzothandoMsiyaPortfolio/>

### TrackRank — Student Performance Tracker

HTML / CSS / JavaScript / Firebase Firestore / Express.js / Groq API

- Web-based system designed to help school teachers and students track academic performance.
- Teachers/Administrators can upload student marks, track records, and identify top 10 students per term.
- Students can view their standing and see who the top colleague is per semester.
- AI-powered career suggestions using Groq API — students upload marks and receive personalised career guidance.

<https://github.com/MsiyaYNWA2005/TrackApp.git>

### ScholarSync — Student Funding Management System

C# / .NET WinForms / Microsoft SQL Server / Rule-based AI Engine

- Desktop application for managing student funding applications including tuition, accommodation, and living expenses.
- Student portal with registration, funding applications, real-time status tracking, and personal dashboard.
- Administrator dashboard for verifying eligibility, approving/rejecting applications, and monitoring analytics.
- Donor management module with intelligent student-matching algorithms and balance tracking.
- Local rule-based AI chatbot for system guidance that operates fully offline.

<https://github.com/mahlatseclayton/ScholarSync.git>

### SmartClinic

*JavaScript / Node.js / Firebase Firestore / Azure Web App*

- Web application that helps users find nearby healthcare facilities using their location, clinic names, and services provided.
- Allows patients to manage their appointments online.
- Deployed on Azure Web App for reliable cloud hosting.

<https://github.com/khavi22/smartClinic.git>

### ChatOnVibes — Social Chat Mobile App

*Java / Android Studio / PHP / MySQL / XAMPP / Postman*

- Native Android app connecting users through chat, friend requests, and status updates.
- User registration and login with OTP email verification and password reset.
- Friend system with requests, acceptance, and mutual friend views.
- Real-time chat with text and image messaging, status updates with likes and reactions.
- Editable user profiles with bios and profile pictures; PHP/MySQL backend hosted on Wits LAMP server.

<https://github.com/mahlatseclayton/WOOFERS.git>

### Clydesdale Certificates Management System

*HTML / CSS / JavaScript / Express.js / Firebase Firestore*

- Web-based system to digitally replace manual book registration for tracking matric certificate collection.
- Built frontend UI using HTML, CSS and JavaScript; Express.js backend connected to Firebase Firestore.
- Enables admins to register and search student data by unique exam number.
- Solves data loss risk when physical records are misplaced or lost.

<https://github.com/MsiyaYNWA2005/CLYDESDALE.git>

### WCC Project — Windows Forms Desktop App

*C# / .NET / Windows Forms / Microsoft Access / Visual Studio 2022*

- Built a Windows Forms desktop application in C# using .NET, demonstrating core GUI development skills.
- Implemented multi-form navigation and UI components using the .NET Windows Forms toolbox.
- Integrated Microsoft Access database via Visual Studio 2022, enabling data input and querying.
